Your guide to
Papenburg

Welcome to Papenburg!

Papenburg is a city in the district of Emsland in Lower Saxony, Germany, situated at the river Ems. It is known for its large shipyard, the Meyer Werft, which specialises in building cruise liners.

In Papenburg, the summers are a comfortable temperature and are partly cloudy. The winters are long, very cold, windy, and mostly cloudy. Over the course of the year, the temperature typically varies from -1°C to 22°C and is rarely below -8°C or above 28°C.
